M Murtaza Danish

Pakistan, Islamabad | P: +92 312 0078619 | mmdanish.cs@gmail.com | linkedin.com/in/mm-danish

EXPERIENCE

Pixako Technologies

Software Engineer *Feb 2023 - Present*

- Built scalable full-stack applications using Next.js, TypeScript, Node.js, GraphQL, REST APIs, MongoDB, and Redis.
- Optimized performance and SEO through SSR/SSG, Redis caching, and database tuning.
- Architected secure REST and GraphQL APIs with Auth0, JWT, and NextAuth authentication.
- Improved code quality through unit testing, refactoring, and clean architecture practices.
- Integrated third-party services and collaborated within Agile/Scrum workflows using Git and CI/CD tools.

Fauz Z Foundation Website

Website: fauzzfoundation.org

Software Engineer *Aug 2026 - Present*

- Built and deployed a production-ready web application using Next.js (App Router) and TypeScript.
- Designed and optimized PostgreSQL (Neon) database schemas for scalable performance.
- Integrated secure Stripe payment processing and Cloudinary for media management.
- Developed dynamic API routes and real-time features to enhance user interaction.
- Improved SEO and load speed through SSR and performance optimization.
- Managed deployment on Vercel and configured custom domain with secure DNS setup.

Toolkit.law

Website: toolkit.law

React Developer *August 2023 - Feb 2024*

- Translated client requirements into actionable creative and technical strategies aligned with business goals.
- Managed multiple projects from concept to delivery, ensuring quality and timely execution.
- Presented solutions to clients and supervised design output to maintain brand consistency.
- Contributed to brand guidelines and applied industry trends to enhance marketing effectiveness.
