Objectives

A proficient MERN stack developer with extensive 3+ years experience across the full software development lifecycle, adept at creating and optimizing web applications. Possesses a strong ability to quickly learn and implement new technologies, with a keen focus on delivering high-quality, scalable solutions. Seeking a challenging role to leverage my MERN stack expertise in contributing to innovative projects and driving technical excellence.

Education

FUUAST ISLAMABAD — BS Computer Science (CS)

📅 Oct 2018 - Oct 2022

Experience

Pixako Technologies — Associate Software Engineer

📅 Feb 2023 - present

Reactjs Nextjs nodejs Typescript GraphQL

- Creating web apps with Next.js, MongoDB, TypeScript, GraphQL, and Auth0.
- Next.js for smooth UX, MongoDB for data, TypeScript/GraphQL for maintainable code.
- Auth0 integrated for strong authentication and authorization.
- GraphQL on scroll pagination and search filters.

Softify — Software Intern

📅 Aug 2022 - Dec 2022

React Html Bootstraps Javascript Figma

- Built responsive landing pages with HTML, CSS, JS, React, Bootstrap
- Created reusable UI components and layouts from design specs
- Used Figma for prototyping and translating designs into interfaces
- Learned fundamentals of frontend and modern UI practices

Featured Project

Transport Logistics Management Platform (Product based in Australia)

Nextjs MUI Typescript GraphQL Auth0 nodejs

Efficiently implement full CRUD operations in Next.js through a modular and reusable component approach. Ensure robust type checking using TypeScript. Employ MongoDB as the database backend, while crafting a dynamic API via GraphQL and Apollo Server. Implement rigorous form validation using YUP validation. Bolster user authentication through Auth0 integration
